THE WEC PROVEN PROCESS

THE GUARANTEE OF QUALITY, INNOVATION, RELIABILITY, AND VALUE TO ALL OF OUR CLIENTS – EVERY TIME.

1.0

Discovery

We learn about our prospective client – the company, their projects and the current priority.

2.0

Containment Options

Every opportunity is evaluated and a customized solution is proposed based on the needs for that project. The WEC rep now educates the customer on the pro's and con's of each engineered containment solution.

3.0

Detailed Cost Estimate

A detailed cost estimate including materials, installation, containment design and other variables is proposed which meets or exceeds all regulatory requirements. No hidden charges will ever apply.

4.0

Scheduling and Pre Job Setup

A successful ending starts at the beginning. Clear & concise communication and coordination with the project stake holders well in advance of mobilization is managed efficiently and professionally.

5.0

Installation

The Customer experience from WEC field personal is: professional, knowledgeable and punctual. The Customer experience from WEC Administration is: timely and accurate job wrap up (reporting & invoicing).

6.0

On-Demand Containment Specialists Committed for the Long Haul

WEC does not stop until the customer is 100% satisfied every time. WEC stands behind its work with an industry first 15-year ECS Limited Warranty.
